

Car Park Decking-Crowne Plaza Hotel

Larsen Contracts were appointed as the specialist Car Park Contractor for the installation of the decking finishes to the new 10,000m² multi-storey Parking facility for the Crowne Plaza Hotel built in the grounds of the Santry Demesne in Dublin.

The Client had selected a Sika Car Park Decking finishes to all floors. All of the new power-floated decks were vacuum blasted. An anti-slip decking system conforming to EN 1504 was applied to all intermediate decks with the top deck received the Sika 350 waterproof elastomeric top decking system. Internal markings and signage for the car park were provided by Larsen.
